GENDER PAY GAP REPORT 2025

Reporting Date: 5 April 2025

Company Name: NSS Maintenance Ltd

Introduction

At NSS Cleaning Ltd, we are committed to creating an inclusive workplace where everyone has equal opportunities to develop and succeed. We welcome the requirement to report our gender pay gap and use this information to help us better understand our workforce and identify areas where we can further improve equality of opportunity.

This report sets out our gender pay gap data as required by UK legislation and outlines the actions we are taking to continue building a diverse and inclusive organisation.

Understanding the Gender Pay Gap

The gender pay gap measures the difference between the average earnings of men and women across an organisation, regardless of the jobs they perform.

It is different from equal pay, which relates to men and women receiving equal pay for equal or comparable work.

What Our Results Tell Us

Our gender pay gap is primarily influenced by a higher proportion of men in senior and specialist roles and a higher proportion of women in entry-level and administrative positions. We are encouraged by the representation of women across several areas of the business but recognise there is more work to do to achieve greater balance at all levels.

Actions We Are Taking to address our gender pay gap and improve gender representation across the organisation, we are committed to:

- * Reviewing recruitment and selection processes to ensure fairness and inclusivity.
- * Supporting career progression opportunities for all employees.
- * Developing talent pipelines for underrepresented groups.
- * Monitoring pay and reward practices regularly.
- * Providing leadership development and mentoring opportunities.

Looking Ahead NSS Maintenance Ltd remains committed to fostering an inclusive culture where everyone can thrive. We will continue to review our people policies, practices and workforce data to help reduce barriers to progression and create equal opportunities for all employees.
